## Gameboy meets Lagerfeuer

Listen to two dudes using a western guitar, some vocals, a C64 and a gameboy. They tell you about sad robots, the loneliness in computer dungeons and other heart-breaking geeky sceneries.

Feel free to support these guys and buy the album „8-bit lagerfeuer“ as a real CD in black vinyl-optics within a snow-white tintop. Including variant-covers for each song, made by famous german comicartists.

Available at their online-shop @ [www.pornophonique.de](http://www.pornophonique.de). Only 12 Euro! W00t!
